

Condensed Notes to the Consolidated Financial Statements (unaudited)

1 General Information

The Swiss Life Group is one of Europe's leading providers of life insurance and pension solutions. In Switzerland, France and Germany, the Group offers individuals and corporations comprehensive advice and a broad range of products through its own sales force as well as brokers and banks. Swiss Life provides international corporations with employee benefits solutions from a single source and is one of the global leaders in structured life and pension products for international high net worth individuals.

The AWD Group has been part of the Swiss Life Group since 2008. Hanover-based AWD is one of the leading European financial services providers in the medium and high-income client segments and offers its clients personal and holistic financial planning in eight countries.

In the following, Swiss Life Holding Ltd is referred to as "Swiss Life Holding".

2 Summary of Significant Accounting Policies

The half-year financial statements are prepared in accordance with IAS 34 Interim Financial Reporting. The accounting policies used in the preparation of the interim financial statements are consistent with those used in the financial statements for the year ended 31 December 2009, except for the changes in accounting policies as described below.

These interim financial statements should be read in conjunction with the 2009 annual financial statements.

CHANGES IN ACCOUNTING POLICIES — In January 2008, the International Accounting Standards Board issued a revised version of IFRS 3 Business Combinations and related revisions to IAS 27 Consolidated and Separate Financial Statements. One of the main changes is an option which has been added to IFRS 3 Business Combinations to permit the acquirer in business combinations in which control is achieved without buying all of the equity of the acquiree to recognise 100% of the goodwill, not just the acquirer's portion of the goodwill ("full goodwill method"). The revised Standard requires that acquisition-related costs are expensed. Another change relates to partial disposals of an investment in a subsidiary while control is retained and to the acquisition of additional shares in a subsidiary after control was obtained. Such transactions are accounted for within equity. The amendments are effective for annual periods beginning on or after 1 July 2009. IFRS 3 Business Combinations (Revised) and IAS 27 Consolidated and Separate Financial Statements (Revised) have been applied prospectively with effect from 1 January 2010 and therefore there is no impact on comparative periods in the 2010 consolidated financial statements.

In July 2008, the International Accounting Standards Board published Eligible Hedged Items (an amendment to IAS 39 Financial Instruments: Recognition and Measurement). The amendment provides clarification on how hedge accounting should be performed with regard to identifying inflation as a hedged risk and hedging with options. The amendment is effective for annual periods beginning on or after 1 July 2009. No impact on the consolidated financial statements arose from the adoption of this amendment.

The following amendments to Standards and new Interpretations are mandatory for the first time for the financial year beginning on 1 January 2010, but are not currently relevant for the Swiss Life Group:

IFRS 2 Share-based Payment – Group Cash-settled Share-based Payment Transactions

IFRIC 17 Distributions of Non-cash Assets to Owners

IFRIC 18 Transfers of Assets from Customers

Annual improvements to IFRS as published in April 2009

RELATED PARTY TRANSACTIONS — Transactions with subsidiaries have been eliminated on consolidation.

No major transactions with other related parties have been entered into in the period under review.

FUNCTIONAL AND PRESENTATION CURRENCY – Items included in the Group’s financial statements are measured using the currency of the primary economic environment in which the Group’s entities operate (the “functional currency”). The consolidated financial statements are presented in millions of Swiss francs (CHF), which is the Group’s presentation currency.

3 Segment Information

Operating segments are components of an entity about which separate financial information is available that is evaluated regularly by management in deciding how to allocate resources and in assessing performance.

The accounting policies for the segments are the same as those described in the Summary of Significant Accounting Policies section. Inter-segmental services and transfers of assets and liabilities are treated as if the transactions were with third parties, i.e. at market prices applicable at the time of the transaction.

Corporate costs were not allocated to the individual segments as they consist of general administrative expenses and head office expenses that relate to the Swiss Life Group as a whole.

The reportable segments have been identified based on information about the components of the entity that management uses to make decisions about operating matters. The information provided to management focuses on product lines and services. The organisational and management structure within the insurance business is geographical. The reportable segments have therefore been identified as follows:

- Insurance Switzerland
- Insurance France
- Insurance Germany
- Insurance Other
- Investment Management
- AWD
- Other
- Insurance (Discontinued)
- Banking (Discontinued)

The insurance segments primarily consist of life insurance operations. These operations offer a broad range of life, pension, annuity and investment-type policies to both groups and individuals, including disability coverage. The Group's strategy focuses primarily on life and pensions in a number of key European markets, such as Switzerland, France, Germany, Luxembourg and Liechtenstein. The insurance segments also include a number of companies which hold investments primarily pertaining to life insurance.

“Insurance Other” comprises insurance operations in Liechtenstein, Luxembourg, Austria, Singapore and Dubai, as well as payment protection insurance.

Non-life operations involve operations in France and Luxembourg and mainly include property and casualty, liability and motor insurance, accident and health insurance and as well as payment protection insurance. These operations are included in the segment “Insurance France” and “Insurance Other”.

“Investment Management” refers to the management of assets for institutional clients and the Group's insurance business, as well as the provision of expert advice for such clients.

“AWD” comprises the Hanover-based AWD Group, which was acquired by the Swiss Life Group on 19 March 2008. The AWD Group specialises in personal and holistic financial planning for medium and high-income customer segments. The Proventus Group, which was acquired in November 2008, is also included in this segment.

“Other” refers principally to various finance and service companies.

The insurance operations in the Netherlands and Belgium, which were disposed of on 29 April 2008, are presented in the separate segment “Insurance (Discontinued)”.

Banca del Gottardo, Lugano, was disposed of on 7 March 2008. For the purposes of segment reporting, Banca del Gottardo, Lugano, is presented in the separate segment “Banking (Discontinued)”.

The statement of income and the balance sheet for the segments are provided in the following:

4 Contracts for the Account and Risk of the Swiss Life Group's Customers

Assets relating to certain life insurance and investment contracts are managed for the account and risk of the Swiss Life Group's customers (separate account/unit-linked contracts, private placement life insurance). They are segregated and managed to meet the policyholder's specific investment objectives. The assets back the insur-

ance liabilities and the financial liabilities arising from these contracts. The fair values of the liabilities reflect the fair values of the assets. Certain contracts with unit-linking features contain guaranteed minimum insurance benefits. The liabilities relating to this part are included in the insurance liabilities.

PRESENT VALUE OF FUTURE PROFITS (PVP) – The present value of future profits relates to portfolios of insurance contracts and investment contracts with discretionary participation acquired in a business combination or transfer of portfolios. These amounts, representing the present value of future profits amortised in proportion to gross profits over the effective life of the acquired insurance and investment contracts, relate to contracts acquired in Germany and France.

DEFERRED ACQUISITION COSTS (DAC) – Certain acquisition costs relating to new and renewed insurance contracts and investment contracts with discretionary participation are deferred.

DEFERRED ORIGINATION COSTS (DOC) – These costs are recoverable and are directly attributable to securing the right for investment management services within investment contract policies. They relate to contracts in Luxembourg and Switzerland.

GOODWILL – Goodwill represents the excess of the cost of an acquisition over the fair value of the Group's share of identifiable assets, liabilities and contingent liabilities, if applicable, at the date of acquisition. Goodwill on acquisitions of subsidiaries is included in intangible assets. Goodwill on associates is included in the carrying amount of the investment.

In November 2009, the squeeze-out of the remaining AWD Holding shareholders representing 3.3% of the shares was completed. The purchase price of the shares amounted to CHF 58 million and led to additional goodwill of CHF 55 million.

Goodwill of CHF 11 million was recognised in 2009 on the acquisition of a financial advisory business in France.

Also in 2009, the remaining 49.4% of the non-controlling interests of Cegema, France, were acquired, which led to additional goodwill of CHF 5 million.

Goodwill relating to Lloyd Continental and goodwill relating to "Other" have been allocated to the "Insurance France" segment. Goodwill relating to CapitalLeben has been allocated to the "Insurance Other" segment.

Investment contracts without discretionary participation at fair value through profit or loss		241	270
TOTAL INVESTMENT CONTRACTS		11 211	12 089
of which for the account and risk of the Swiss Life Group's customers	4	2 685	2 788

In the case of contracts that do not have significant insurance risk but contain discretionary participation features, the Swiss Life Group primarily bases its accounting policies on the requirements of the Generally Accepted Accounting Principles in the United States (US GAAP).

For investment-type contracts, the savings premiums collected are reported as deposits (deposit accounting). These amounts relate to contracts issued in France and Luxembourg.

In the case of traditional contracts in the life insurance business, future life policy benefit liabilities are determined by using the net-level-premium method on the basis of actuarial assumptions as to mortality, persistency, expenses and investment return, including a margin for adverse deviation. For participating contracts where the contribution principle applies to the allocation

of the policyholder bonus, future life policy benefit liabilities are determined by using the net-level-premium method on the basis of appropriate mortality and interest rate assumptions. These amounts relate to contracts issued in Switzerland and France.

Certain contracts that do not contain significant insurance risk and do not have discretionary participation features are carried at amortised cost or fair value.

Convertible debt	–	34
Bank loans	78	184
Finance lease obligations	3	3
TOTAL BORROWINGS	2 328	2 731

HYBRID DEBT

In 2009, hybrid debt was repurchased. The gain on the repurchase for the first six months of 2009, calculated as the difference between the carrying amount and the amount paid to extinguish the liability, amounted to CHF 35 million and is included in other income. In 2009 Swiss Life Ltd renounced the right to call the privately placed subordinated step-up loan, which was issued in 1999, on the first call date.

The change in the first half of 2010 was primarily due to foreign currency gains.

CONVERTIBLE DEBT

On 10 June 2004, Swiss Life Holding issued CHF 317 million in 0.625% convertible bonds due in 2010. The bonds were convertible into registered shares of Swiss Life Holding at any time at the option of the holder. Bondholders exercising their conversion right were entitled to receive the number of shares equal to the principal amount of CHF 1000, divided by the original conversion price of

CHF 209.625 (subject to adjustments, with effect from 29 July 2008 conversion price of CHF 200.20).

No convertible bonds were converted in 2010 or in 2009. On 10 June 2010, the remaining CHF 34 million in convertible debt matured and was redeemed (2009: repurchased CHF 8 million).

BANK LOANS

On 25 July 2008, Swiss Life Insurance Finance Ltd entered into a EUR 500 million loan agreement with a syndicate of banks. The syndicated loan has a three-year maturity and was originally split into a EUR 200 million fully drawn loan bearing an interest rate of Euribor plus a margin of 0.70% and a EUR 300 million undrawn credit facility against a commitment fee of 0.225%. The drawn part of the loan was reduced by repayments of EUR 100 million in 2009 and EUR 40 million in the first half of 2010.

CLAIMS UNDER NON-LIFE INSURANCE CONTRACTS

Claims under non-life insurance contracts represent the liability needed to provide for the estimated ultimate cost of settling claims relating to insured events that have occurred on or before the financial reporting date. The estimated liability includes the amount that will be required for future payments on both claims that have been reported to the insurer and claims relating to insured events that have occurred but have not been reported to the insurer as at the date the liability is estimated. Loss development tables are generally used to make these estimates.

UNEARNED PREMIUMS

Unearned premiums represent the portion of the written premiums relating to unexpired terms of coverage.

CLAIMS UNDER LIFE INSURANCE CONTRACTS

Claims under life insurance contracts represent the liability for unpaid portions of claims incurred. It includes an estimate of the liability for claims incurred but not

reported (IBNR). The measurement at reporting date is a best estimate of ultimate future claim payments.

FUTURE LIFE POLICYHOLDER BENEFITS

For participating contracts where the contribution principle applies to the allocation of the policyholder bonus, future life policy benefit liabilities are determined by using the net-level-premium method on the basis of appropriate mortality and interest rate assumptions.

The valuation of other long-duration contracts is also based on the net-level-premium method with actuarial assumptions as to mortality, persistency, expenses and investment returns, including provisions for adverse deviation.

DEPOSITS UNDER INSURANCE CONTRACTS

For investment-type contracts with significant insurance risks, savings premiums collected are reported as deposits (deposit accounting).

Externally managed alternative investments	-1 007	-1 682
Externally managed other assets	-151	-668
TOTAL ASSETS UNDER MANAGEMENT	135 031	132 022

Assets under control are taken to comprise:

- assets stated as investments in the balance sheet and cash and cash equivalents
- assets included in the balance sheet for the account and risk of the Swiss Life Group's customers (separate account/unit-linked investments, private placement life insurance)
- assets managed for third parties by the Group

For the purposes of determining assets under management, the assets managed by third parties and alternative investments managed by third parties have been deducted from assets under control.
